Your National One Stop Shop for Asbestos Litigation

BCA handles many asbestos-related disease cases including: asbestos-related pleural disease, pulmonary asbestosis, stomach cancer, laryngeal cancer, esophageal cancer, colon cancer, lung cancer, and mesothelioma. Our dedicated and experienced attorneys and staff will take the asbestos cases you have been working on, and we will handle the years of client communication and PID work-up required to file, and reach resolution on, claims with any and all asbestos bankruptcy trusts they may qualify for compensation with.

This allows maximum recovery for the clients due to BCA's expertise in processing asbestos bankruptcy claims, and allows your firm to still receive a fee interest off every settlement received, all while affording your firm the freedom to devote its resources and manpower to the other cases in your inventory.

**The best compliment an attorney can receive is a
referral from another attorney.**

*We receive thousands of asbestos cases on referral or associations from
hundreds of law firms across the country*

“Our firm has worked with Brent Coon on asbestos cases and other personal injury cases for several years, and our working relationship with Brent Coon & Associates is excellent. We can depend on Brent and his staff for expertise and assistance for day-to-day issues, trial preparation, and litigation.”

Jackey South

Lundy and Davis Law Firm
Lake Charles, Louisiana

“Our law firm began working together with BCA in 2011 in mass tort litigation. Their team brought a level of expertise and courtroom success that we needed to obtain larger returns for our clients. They performed above all of our expectations with promptness, diligence and a high level of professionalism. We have paired up with them on numerous other cases since then and we have every reason to expect a continued high value resolution in all of our shared cases. I will continue to use BCA and I recommend Brent and his talented team to any lawyers looking to get high values for their cases.”

George Otstott

Senior Partner
Otstott & Jamison, PC

“Bob and Brent have done a great job for our family. As we look at the later phases of all this, it is great to know that Brent has such a strong reputation in the oil and gas industry. They know they will going up against one of the best.”

Richard Spradling

BCA Client

“Becoming one of the five largest plaintiffs’ trial firms in the country and doing it in under 6 years, we have to be doing something right - and in a time when the old regime is crumbling, we have the depth, the determination, and will go the distance to help you in facilitating a strong recovery for your clients.”

Brent Coon

“I had the good fortune to try two cases with Jim Morris as my co-counsel. His experience enabled us to make adjustments in strategy and presentation throughout both trials, and his talent in the courtroom was responsible for favorable verdicts in both cases. I would not hesitate to recommend sending a case to Jim if you want it developed and tried right.”

Kip Petroff, PC

Dallas, Texas

“Brent is the ‘lawyer’s lawyer’. His commitment to the legal community and his clients has and will continue, to buttress the integrity of our legal system”

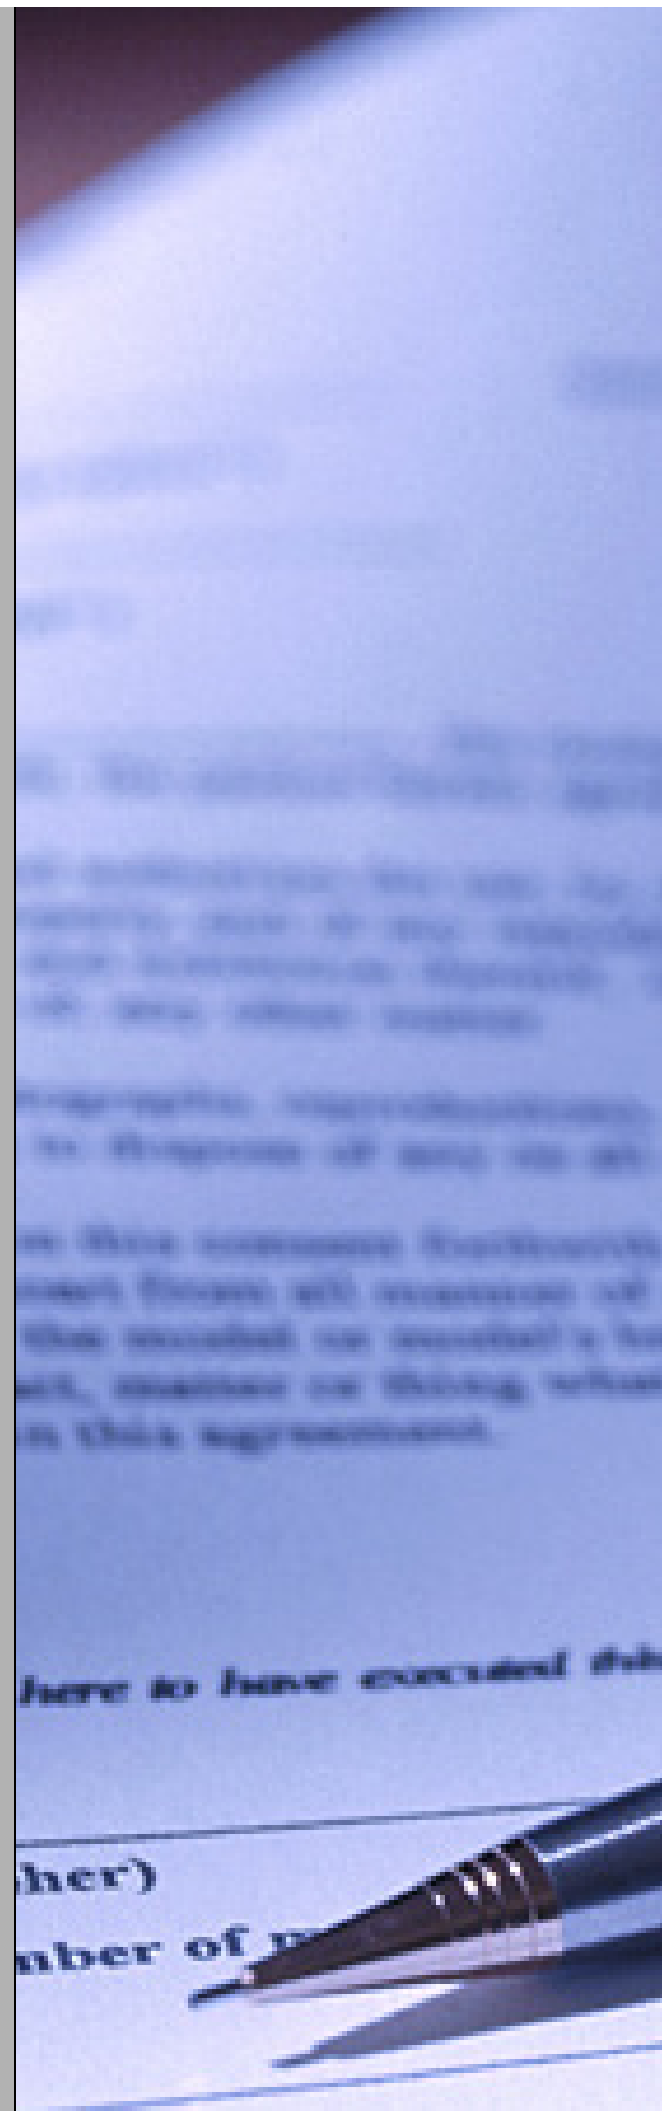

Edward O. Moody

Maximize Your Asbestos

There are 60+ Asbestos Bankruptcy Trusts that have combined assets of close to \$40 billion, are your clients getting what's owed to them?

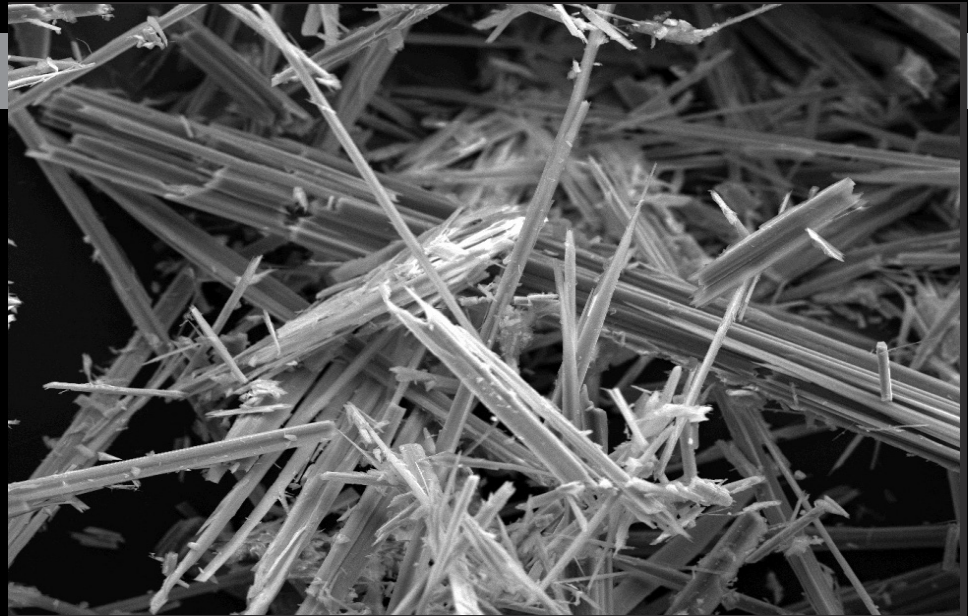

- Section 524(g) of the U.S. Bankruptcy Code allows defendants to bow out of the tort litigation system; but in exchange, the defendants must put money aside to pay current and future claims.
- Trustees manage asbestos trusts for the benefit of present and future claimants. The claims are processed and decided under preset trust distribution procedures.
- Since asbestos bankruptcy trust claim filing is a detailed and lengthy process, receiving approvals and/or rejections from all trusts can take several years. Brent Coon & Associates has the infrastructure, and the experienced attorneys and staff, to handle both cases and client questions during this time frame.

Why choose Brent Coon & Associates for asbestos bankruptcy trust submissions?

- BCA Attorneys, and Staff, have extensive experience in the Asbestos Litigation process.
- BCA Attorneys sit on the Trust Adversity Committees for multiple Asbestos Bankruptcy Trusts.
- BCA Attorneys and Staff maintain a long-term relationship with all the major PRAs to handle claims for the Asbestos Bankruptcy Trusts.
- Brent Coon & Associates has handled over 15,000 clients.
- Brent Coon & Associates has recovered over \$100 million for our clients, over the past 15 years across 15 bankruptcy trusts alone.

How We

Consistency of Representation

From intake to the collection of the judgement, we have implemented a uniform case handling system. Our database team, medical and legal review teams, standardized pleadings and other components all come together to greatly reduce the likelihood of inconsistency.

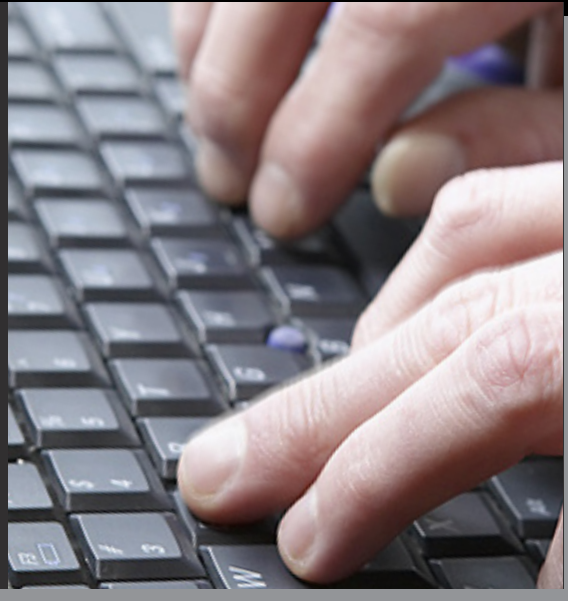

Constant Communication

Once you refer a case, you'll want to be kept abreast of its status. We have deployed automated tracking mechanisms and other technologies that, along with friendly and knowledgeable people, can always facilitate this. With Brent Coon & Associates, you'll always know what's going on.

e Do It

Advanced Technology

Mobile IT teams , sophisticated databasing, electronic discovery - we're the experts. When it comes to getting your case ready for trial - if you're not deep into technology, you're going to be unable to compete.

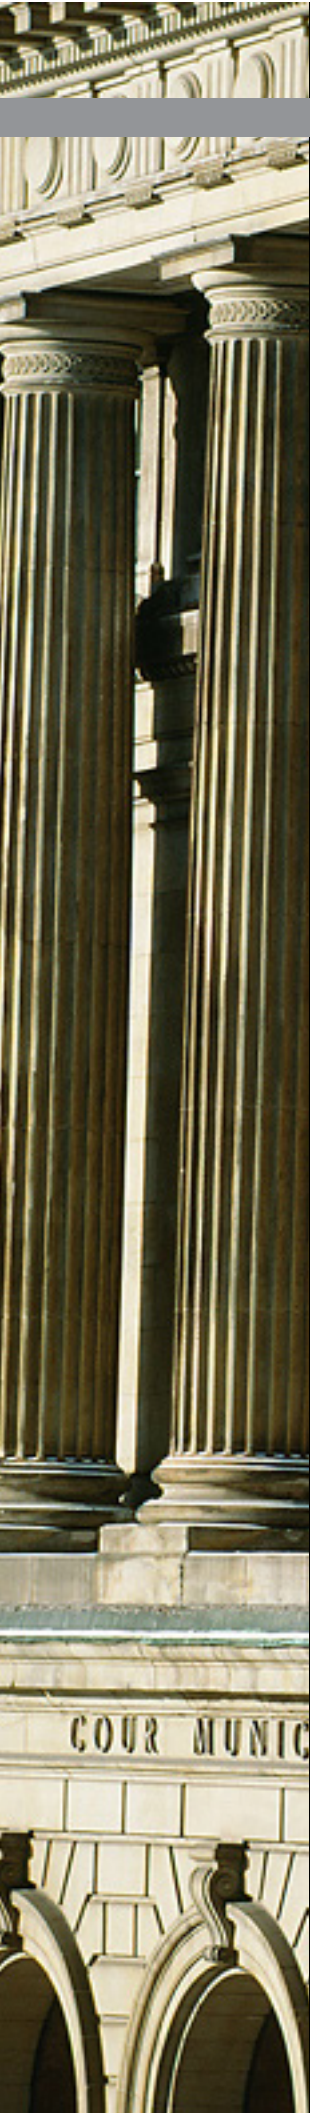

Multiple Trial Teams

In successful 21st century litigation, it is essential to have flexibility and versatility. This means being able to file large numbers of mass tort cases in multiple jurisdictions. Built into our infrastructure with multiple trial teams working throughout the country, which allows us to avail our clients of the benefits of the best state laws and forums.

Additionally, this ability to deploy multiple trial teams simultaneously in multiple states adds pressure to bring the defendants to the table... and to settle

“There have been a lot of campaigns through the past few years...interested in tort reform... trying to show how selfish and money hungry lawyers are... When you learn of what the terms of this settlement are, you will see how unfair that picture can be.”

Judge Susan Criss

212th District Court Judge
Galveston County, Texas

“You have given hope and strength to a lot of people and stepped up for no other reason than you care. I’m a poor rights activist. You are prominent litigators and PR experts. The fact that you would be willing to help me, help us, means a great deal to me and helps restore some faith in other people that has been visibly absent in my life. So sincerely. Thank you both.”

David Devreaux

Motorcycle Rights Activist

Unlike the law firms hired by several of my co-workers who settled quickly, Brent Coon & Associates fought BP to the end, taking several cases to trial against BP. They were the ONLY firm to go to trial against BP, resulting in a much better settlement of my case than my co-workers who’s attorneys settled without knowing just how dirty BP was. BCA did everything that they said they would do, and then some! Because the big companies know who always settles and who goes to trial, BCA gets better settlement offers for their clients, I saw it happen!

“Our firm started as an asbestos litigation firm and that litigation still makes up the largest division of our firm to this day - and that distinction is important. We have the extensive knowledge of the play-book in nearly every aspect of asbestos exposure. We have identified virtually everything there is to know about the types of job sites and products that can lead to injury. And we have access to all of the experts needed to strengthen the claims of our clients. This was the mission that started this firm and it continues to be the passion that drives us today.”
